SL	New! Tide Budgets – take control of every pound
PH	Split funds, stay in control, see everything clearly
Banner Text Big image from Chaitanya's template	Tide Budgets: Simplify spending
First name dynamic	Hey <FName> ,
Body Text (guide)	Your business is moving fast – is your money keeping up? When marketing, travel and payroll all come out of one pot, things can get messy. That's where budgets come in. Budgets lets you separate your money into dedicated spend pots – each with its own virtual card – so every pound has a purpose. CTA: Build your first budget Why you'll love it: ✓ Spend with clarity – Keep marketing, payroll, and other projects separate, and see exactly what's left for each in real time. No mental maths required ✓ Empower your team – Assign team members to specific budgets. They get

	the freedom to spend, you keep the control ✓ Built-in guardrails – Set a limit for every budget. If the marketing card hits its cap, your travel fund stays untouched To create your first budget in the app, go to Accounts and select Create a budget. You can set up to three Budgets, making it easy to organise your money across projects.
If they have a Virtual Card	Already got a virtual card? Existing cards can't be linked to a budget. Set up a new budget and we'll instantly give you a new virtual card specifically for that pot. You can create up to 5 virtual cards , each linked to its own budget.
CTA	Create a budget
How to Box title	Finish setting up your budget
How to Box (very much still WIP)	1. Personalise it. Tailor it to the expenses or project you want to manage. 2. Set limits. Decide your spending cap and assign, or create a new card for this budget 3. Your budget is live. Track spending and stay in control as payments happen
CTA in How to Box	Get started

SL	New! Tide Budgets – take control of every pound
PH	The perfect way to manage your business spend
Banner Text Big image from Chaitanya's template	Tide Budgets: Simplify spending
First name dynamic	Hey <FName>,

Body Text (guide)	Managing business spend shouldn't mean mixing everything up. Tide Budgets lets you set money aside for specific expenses while keeping your main balance untouched – simple, organised, and stress-free. Think of a budget as a dedicated pot for specific costs. Add an amount – say £500 for Software subscriptions – and attach a virtual card to it. Easy, instant, and ready to spend. CTA: Let's Budget Here's why you'll love it: ✓ No overspend, no stress – Your virtual card can only spend what's in its budget. Your main account stays untouched. ✓ Full control – Decide exactly how much goes in and what it's for. ✓ Automatic organisation – Budgets track your spend for you. No more digging through statements. Create your first budget in the app. Simply go to Accounts and select Create a budget. You can set up to three, making it easy to organise your money across projects.
CTA- After Body Text	Create a budget
How to Box title	Finish setting up your budget
How to Box (very much still WIP)	4. Personalise it. Tailor it to the expenses or project you want to manage 5. Set a limit. Decide your spending cap and assign cards, or create a new card for this budget 6. Your budget is live. Track spending and stay in control as payments happen

Push Congratulations (1 day after budget creation, but no money added, and no spend)

36/140 characters:

Title: You’ve created your first budget! 🎉
Description: Top it up, split funds, and start spending! Every pound tracked, every expense organised – business spending made simple

Push Missing action Spend/Fund (7 days after congrats)

36/140 characters:

Title: Your budget is ready to go 🎉
Description: Add money to your Budget, create virtual cards, and see every expense neatly organised

Unhappy path: Email reminding of the benefits if no actions after the nudges (7 days after last one)

Section	Copy Card Users
SL	Ready to streamline your spend?
PH	Start a budget
Body Draft	Give your money a home, <FNAME>!

	Add funds, start spending, and track every pound in one place. Your budget. Your rules. CTA: Use budget
--	---

3. Budgets churn risk:

- Members whose budget balance hasn't changed for 30 days
- Members who haven't used their associated virtual card for 30 days
 - Reminder of the benefits and how to use them

Can you transfer money directly out of a budget to an external source/account
